Vitagraph Comedy, featuring Leah Baird and Leo Ballamy.

## Bankers From Four Counties Meet Here

MEMBERS GROUP NO. 1 S. C. B. A. HAVE AN ENJOYABLE SESSION

ENDED LAST NIGHT WITH A BANQUET

Interesting and Instructive Addresses by Bankers of Prominence.

Yesterday was Bankers' Day in Anderson. Just before noon they began to arrive from all sections of the four counties of Anderson, Pickens, Oconee and Greenville, which go to make up Groupe No. 1, of the South Carolina Bankers' association. At 3:30 o'clock a business session was held in the chamber of commerce rooms, followed by automobile rides over the city and the banquet at 7:30 last evening in the new theatre building. In all there were about twenty-two banks represented.

Chairman A. L. Mills, of Greenville, presided at the meeting yesterday afternoon and after the minutes of the previous meeting, which was held in Greenville, were read and approved, Mr. Haynes McFadden, of Atlanta, Ga., secretary of the Georgia Bankers' association and also editor of The Southern Banker, whose circulation extends over the Southern States, was called upon to make an address. He urged the importance of work as a factor in making the bankers meetings a success. He outlined the proceedings of the work of the associations in Georgia, which contained valuable suggestions.

The next speaker was Mr. T. Frank Watkins, of the local bar. His speech was upon the Torrens system of land registration. He has given much study to this question and his speech was a revelation to many in that it explained the possibilities of the system and at the same time the impracticability of it.

Mr. D. R. Coker of Hartsville had been invited to the meeting to make an address but he was unable to attend. However, he sent in a paper which will be published later. Another speaker who was unable to attend was Mr. A. H. Titus, cashier of one of the leading banks in New York city. He sent a telegram expressing his regrets.

The next speaker was Mr. William G. Sirrine of Greenville who spoke about warehouse receipts on cotton as collateral. His speech was very instructive.

Following Mr. Sirrine was Mr. E. A. Ruffin of Richmond, Va., secretary of the insurance committee of the American Bankers' association. His speech while confined to banking insurance was full of wit and jokes which delighted the hearers very much.

Election of Officers. After this officers were elected for the ensuing year as follows: Walter E. Green, chairman; E. C. Bailey of Greer, vice chairman; Chris. Suber of Williamston, secretary and treasurer.

Immediately afterwards the session came to a close and the bankers were invited to take automobile rides around the city, which were very much enjoyed.

Banquet Last Evening. The banquet last evening was well attended there being about seventy-five present. The table was beautifully decorated with white and red roses while United States flags were used on the walls. The souvenirs were bouquets of sweet peas. The dinner was very elaborate and thoroughly enjoyed.

The toastmaster of the evening was Capt. H. H. Watkins, who filled the place admirably. Those responding were Mayor J. H. Godfrey and Messrs. W. G. Sirrine, A. L. Mills, and Perry Beattie, of Greenville; Messrs R. C. Ligon, Porter A. Whaley of Anderson and Mr. B. A. Ruffin of Richmond, Va.

## PERFECTING PLANS THREE DAYS SCHOOL

ATTENDANCE EXPECTED TO BE 100 AND PROBABLY MORE

NAMES ASSISTANTS

Miss Garlington Busy Attending to Final Preparations.

That the three days' school which will be held in Anderson June 25, by Miss Janie C. Garlington, tomato club demonstration agent for this county, will be attended by 100 or more persons was the opinion expressed by Miss Garlington yesterday. She will be assisted by Miss Ethel Parrott of the Home economics department at Winthrop College. Miss Martha Platt, demonstration agent for Abbeville county, and Miss Wise, demonstration agent for Newberry county.

Members of the homekeepers' clubs in the county number forty and Miss Garlington expects everyone of these to be present, as also all the members of the canning clubs in the county. Each of these will be expected to bring their bed linen and food for themselves, "and to be sure to leave the children at home." Those attending are expected on Wednesday afternoon, June 2nd.

On Thursday they will be taught how to properly can tomatoes. On Friday the girls will be taught how to make catsup and the women will be taught ideas for the betterment of their homes and how to make bread. On Saturday they will be taught how to can beans. Miss Garlington says the ladies should make especial efforts to be present on Friday.

Miss Garlington has made a canvass of the business men of the city for the purpose of raising funds to help defray the expenses of this school and has met with much success.

The interest which is being manifested by the girls in the county in regard to the coming three days' school will be shown by the following letters which Miss Garlington has received:

"I received your invitation and accept it with much pleasure. It is so kind of you to plan such good things for us.

"It is doubly interesting to me to accept this invitation as I finished Helton high school this year and am thinking of going to Anderson College next session.

"I will bring the following: One pound of butter, two loaves of bread, two dozen eggs, jelly, cake, chicken and some vegetables.

"Lucile Haynie."

"I received your letter yesterday and am very glad to know that you will get the use of the college for three days. I think we can learn a good deal in that time. You may depend on me and I will bring all those things you ask me to. Mamma says she would like to come if you will let her. I have all of my tomato plant set out, and they are growing pretty but the cutworms have cut down about fifty plants, but I will replant them as soon as it rains. We are expecting you to be at our picnic a High Shoals tomorrow. If something should happen that you couldn't get there come to see me as soon as possible as I want to talk with you some concerning pruning and staking.

"Helen Gaszaway"

## PAVING MATERIAL TO UNDERGO SEVERE TEST

CHEMICAL LABORATORY WILL BE ESTABLISHED AT MIXING PLANT

THE BEST RESULTS

Will be Obtained by This Method—Contract Was Closed Yesterday.

Chairman E. I. Horton of the paving commission stated yesterday that a contract had been closed with the Pittsburgh Testing company to conduct the laboratory tests of the sheet asphalt pavement which is to be laid in the city of Anderson by the Southern Paving Construction company, contractors, of Chattanooga.

As generally known, in all cities where paving is done the city employs a chemist who makes it his business to keep a check on the material used. One plan generally followed is to cut chunks out of the pavement after it is laid and send these on by express to some laboratory up north, where it is tested and a report returned. This entails considerable loss of time as well as expense, and before a sample of pavement reaches the laboratory and a report is returned the contractors have gone forward several blocks with the work. In other words, by this system defects in pavement are not discovered until after the pavement is put down. The only way the trouble can be corrected then is for the pavement that is defective to be taken up.

With the system that is to be employed by the paving commission the best results will be obtained. The testing company employed will establish a laboratory at the plant where the asphalt is to be cooked preparatory to being hauled to the street where it is to be put down. The sand, asphalt and other ingredients going into the pavement will be subjected to chemical tests before they are mixed. During the process of cooking tests will also be made. After the material comes out of the furnace it will be again tested to determine if it has been properly cooked, if the temperature is at the proper stage, etc. It will be seen that by this method defects in the quality of material will be detected before the asphalt has been allowed to go to the street where it is to be put down. In this way the city will have the satisfaction of knowing that all paving put down will be of the very best and prepared under ideal conditions.

Mr. W. R. Caldwell, representing the Pittsburgh Testing company, met with the executive committee of the paving commission yesterday at noon with reference to the testing service. No deal was closed at this meeting, but Mr. D. A. Ledbetter was authorized to make a contract with some chemical testing company to do this work. Later in the day Mr. Ledbetter closed a contract with the Pittsburgh concern.

How Mrs. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw 'Lieberlain's Tablets' advertised and ordered a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating a bit from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

TOO LATE TO CLASSIFY.

## Important Figures in Situation

The attempt of the Italian royal party to get rid of Premier Salandra in order to avert the present war with Austria (and it is presumed with Germany and Italy) was a boomerang. Within 48 hours after Premier Salandra had resigned and Marcora, president of the lower house of the Italian parliament, had been chosen to form a new cabinet, there was a right to about face. Salandra was recalled through the demonstrations of the people in all parts of the country. At once the situation as to the war became graver, and it was considered that Italy would go on.

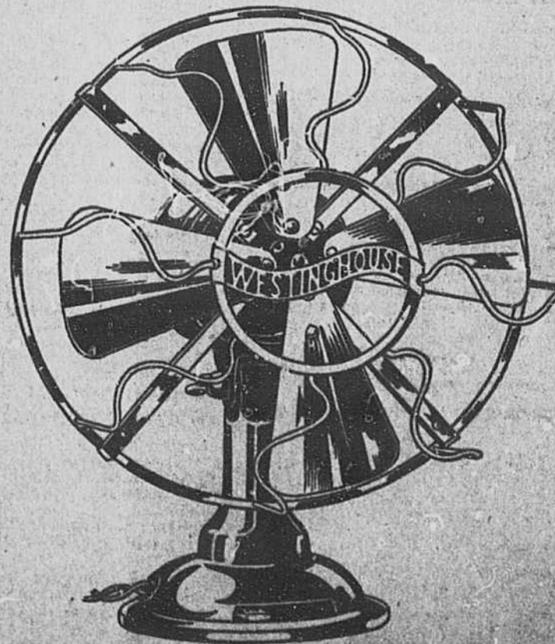

## WILL HOLD FAREWELL SERVICES TONIGHT

For Dr. and Mrs. John F. Vines at the First Baptist Church.

This evening at the First Baptist church the regular prayer meeting will be converted into a farewell service for Dr. and Mrs. Vines, who will leave the first part of the coming week for their new home in Roanoke, Va. This service is expected to be largely attended and will be a very enjoyable one and at the same time a sad one. Several members of the congregation are expected to make talks and of course the retiring pastor, Dr. Vines, will make a few farewell remarks.

For Coughs that "Hang On." Lingering colds, bronchial coughs, la grippe colds and similar ailments that "hang on" until May are likely to last all summer if not cured. Foley's Honey and Tar Compound will allay inflammation, clear stopped passages, relieve distressing discharges at the source, banish stuffy, wheezy breathing and heat and soothe the raw nasal and bronchial passages. It is prompt in action, safe and sure. Contains no opiates. Evans Pharmacy.

## NOW IS THE TIME TO THINK OF YOUR HOME AND OFFICE

FOR THE OFFICE SPEED UP WITH AN ELECTRIC FAN

FOR THE HOME KEEP YOUR HOME COOL

Sir, you can do more business and do it better if you provide electric fans for yours and your clients.

A household electric fan is very economical and very refreshing. You can operate it for a very small amount.
